SUMMARY

Motivated M.Sc. Computer Science student at Bishop Heber College with a strong academic background from The Gandhigram Rural Institute (DTBU). Skilled in full-stack web development, problem-solving, and building efficient, user-centric applications. Seeking an entry-level software development or internship opportunity to apply technical and collaborative skills.

EDUCATION

Master of Computer Science (M.Sc.) 2025 – 2027

Bishop Heber College (Autonomous)

B.Sc. Computer Science 2022 – 2025

The Gandhigram Rural Institute (DTBU)

TECHNICAL SKILLS

Languages: C, Python, Java

Web: HTML, CSS, JavaScript, Node.js

Database: SQL, MongoDB

Concepts: UI/UX Design, Object-Oriented Programming, Full-Stack Web Development

INTERNSHIP EXPERIENCE

Web Development Intern Jan 2026 – Feb 2026

LaunchED Global

- Completed Web Development Mentorship Program under LaunchED Global.
- Built and delivered AniTrack, a full-stack anime tracking web application, as the capstone project.
- Gained hands-on experience in full-stack development using HTML, CSS, JavaScript, Node.js, Express.js, and MongoDB.
- Recognized as a keen and enthusiastic candidate upon successful completion (Certificate ID: LED007-IN1225).

PROJECTS

AniTrack – Anime Tracking Web Application | *HTML, CSS, JavaScript, Node.js, Express.js, MongoDB*

- Developed a full-stack anime tracking platform for managing watchlists, episode progress, and community discussions.
- Implemented features including club discussion boards, spoiler protection, polls, reviews, and an analytics dashboard.
- Built an admin panel for managing users, anime listings, and community content.
- Designed a responsive dark-themed UI with streaming integration links and watchlist sharing functionality.
- Submitted as Web Development Capstone Project at LaunchED Global (February 2026).

Anime Shorts – Short Video Application | *MongoDB, Express.js, React.js, Node.js (MERN Stack)*

- Built a full-stack short video platform exclusively for anime content creators and viewers, similar to Instagram Reels.
- Implemented user authentication, video upload (Multer), like/save functionality, and customizable user profiles.
- Deployed frontend on Vercel and backend on Render; used MongoDB Atlas for cloud database management.
- Followed full CRUD operations with real-time updates across the application.

Ryuk Running Game | *HTML, CSS, JavaScript*

- Developed a browser-based endless runner game inspired by the classic Dino Runner.
- Implemented sprite animation, obstacle generation, and coin collection mechanics.

- Features a life system with three lives and an eerie dark-themed visual design.

KnowZilla – Online Quiz Portal | *HTML, CSS, JavaScript*

- Built an interactive quiz portal with dynamic question rendering and real-time scoring.
- Designed a clean, responsive interface with navigation and answer-selection buttons.
- Implemented restart functionality and result display at the end of each quiz session.

CERTIFICATIONS

- Full Stack Development – 30-day MasterClass, NoviTech R&D Private Limited (Nov–Dec 2025)
- Web Development Internship – LaunchED Global in association with Futureex.ai (Jan–Feb 2026)
- Web Development Mentorship Program – LaunchED Global (Certificate ID: LEDCCN5982)
- UI/UX Design – 30-day MasterClass, NoviTech R&D Private Limited (Jul–Aug 2025)
- MongoDB – Foundational certification covering NoSQL databases, data modeling, and CRUD operations (July 2025)

ACHIEVEMENTS

- 1st Prize – Mime Competition, The Gandhigram Rural Institute
- Participated in Quiz – State-Level Inter-College Event, NPR College, Natham
- District-Level Ball Badminton player with multiple zonal and school-level certificates
- National-Level certificate in Yoga along with multiple school-level certificates

STRENGTHS

- Strong logical thinking and analytical skills to troubleshoot and optimize code.
- Effective communicator, able to convey technical concepts to non-technical audiences.
- Leadership and team collaboration experience through academic group projects.
